COMMENTS FROM THE TOWN MANAGER'S OFFICE

Several people have started fires at the dump in the evening requiring the attention of the fire department. Unauthorized persons should never start a fire at the dump. The fire department has had to answer several other calls at the dump this summer besides the ones this last week. These calls run up the cost of operating the town just as any other service does. There is also the possibility of a large fire developing that would cost the town a lot to fight and would result in loss to the landowners.

A small amount of gravel is being hauled to the dump so that people can drive closer to the edge and throw their waste over the edge. A lot more people have been using the dump this summer so that more time has been required to keep the dump bulldozed over. Throwing your waste over the edge will help lessen the amount of time required to keep the dump pushed over.

There will be a special election Nov. 5, 1963. The warrant can be found elsewhere in this issue of the paper that contains the five referendum questions and two constitutional changes that will be voted upon. Any qualified person who is not registered may do so during the regular town office hours. Any person who isn't sure what the voter qualifications are may telephone or stop at the office.

We have received the 1964 excise tax books and anyone with special plates or anyone who will not be in Bethel in January or February of next year can pay their excise tax now.

COUNTY ECONOMIC COM. DIRECTORS TO MEET

Samuel H. Timberlake, Bethel, chairman of the Oxford County Economic Development Steering Committee, has announced that the county-wide organization will hold its first directors' meeting Thursday, November 17, at the Norway Fire Hall. The 7:30 p. m. meeting is designed to bring together officials from all towns in the county for discussion of development problems and possibilities. A top economic development expert will be the featured speaker.

Mr. Timberlake says all Oxford County town managers and first selectmen, or their appointed delegates, are official members of the board, along with steering committee members and others who will be named later to various standing committees.

The Oxford County Economic Development Committee was formed in February of this year. By-laws of the organization state that the committee will participate in urban and rural area development through its own activities, cooperating with local and state agencies and in federal programs applicable to the best development of Oxford County.

Serving on the Steering Committee, which has been meeting regularly since February, are chairman Timberlake, Charles G. Hall, South Paris, Warren S. Abbott and Keith W. Ruff of Rumford, Russell W. Foss, East Hiram and County Extension Agent Frank W. Hagan, Paris, secretary.

Steering Committee members held a series of regional meetings during the late spring and early summer to acquaint town officials in all parts of the county with organization and aims of the development group. The November 14 gathering in Norway will be the first to include representatives from all towns in the county.

OPEN FIRES BANNED

Two positive results were forthcoming at Monday's meeting, however, a name was selected, Bethel C. B. Monitors, and the constitution and by-laws were approved.

The Junior MYF will conduct a canvass for UNICEF on Halloween from 6:30 to 7:30 p. m.

PLAYERS HOLD SPECIAL MEETING

At a special meeting held Monday evening at the home of Barbara Bryant, Bethel Players set their first production dates for two nights November 22 and 23, at Odeon Hall. However the cast will consider a third performance depending on the advance sale of tickets for these two nights, which are expected to be available in the near future.

Last spring, enthused members of the cast and production crew of "The Music Man Musical Revue," held to start the Bethel Community Center Fund, were overwhelmed by its success and grouped together to reactivate the Bethel Players. They agreed that all proceeds of their productions would be added to this Fund. Bethel Players are hopefully anticipating a big boost to this Fund through the efforts of their first production, "You Can't Take It With You." This whimsical three-act comedy was selected as one which would delight an audience of all ages.

Bethel citizens are urged to support this new active community group who are anxious to help the children of Bethel and vicinity attain a recreation center of which we can all be proud. Show your approval and give your support by purchasing your tickets early.

SUNDAY RIVER SKIWAY COMPLETES NOVICE AREA

Sunday River Skiway has completed installation of a 2500 foot, high capacity T-Bar lift serving the large novice area completed this summer.

The new area, known as The Mixing Bowl, is close to a half mile in length, 300 feet in width and lies in the sunny area across the brook behind the base lodge, well removed from intermediate and expert traffic. The hill behind the lodge has been leveled to provide a wide and slightly downgraded slope leading to the new base terminal.

Murray Thurston, president of the corporation, said, "We believe this to be one of the finest novice slopes to be found in New England. It provides gentle, rolling terrain necessary to instruction and the confidence of the inexperienced and beginning skier."

The capacity of the new lift is rated at 950 skiers per hour and raises the area's total uphill capacity to 2700 skiers per hour over its 1½ miles of T-bars.

Long known for its abundance of powder snow and short waiting lines, Sunday River is now able to fill a long felt need for expanding novice facilities. The Mixing Bowl has been graded and seeded so that it will be skiable with a minimum snow depth. Last year the area ran from Christmas until mid-April, and the corporation plans now to open the new slope even before the main mountain receives its heavier snow cover.

SALWAY - KIMBALL

The West Parish Congregational Church on Sunday afternoon, Oct. 6, was the scene of a lovely wedding when Miss Norma Jean Kimball, daughter of Mr. and Mrs. Ralph Kimball of Albany, was united in marriage with David Paul Salway, son of Paul Salway of Greenfield, Mass., and the late Kathryn Morgan Salway. Rev. Clifford Laws, pastor, performed the double ring service. Traditional wedding music was played by Miss Carol Flint, and The Lord's Prayer beautifully sung by Miss Beverly Bryant of Hebron. The church was decorated with baskets of white and orchid mums.

The bride given in marriage by her father, wore a full length gown with bodice of embroidered Chantilly lace, scalloped neckline and long pointed sleeves, the full hoop skirt of tulle embroidered with sequins extending in a chapel train. A crown of pearls held her veil of bridal illusion. Her cascade bouquet was white mums and carnations centered with orchid poms.

Miss Ethel Kimball was her sister's maid of honor. She wore pale green with matching veil. Miss Sylvia Kimball, another sister, wearing an identical gown was junior bridesmaid. Miss Cindy Sue Hunter, of Unity, cousin of the bride was flower girl. All carried colonial bouquets.

A reception followed the ceremony at the Songo Lake Pavilion. Miss Lucille Bronilard of Gould Academy, had charge of the guest book. Gifts

A COMMENTARY

The action of the Senate in approving the treaty banning nuclear tests in the atmosphere was, in its way, a grimly vivid commentary on the world we live in.

The favorable vote, 80 to 19, was much larger than the required two-thirds majority. But there was little exultation, little feeling that a really long step toward world peace had been taken. It is fair to say that most of those voting for the treaty, Democrats and Republicans alike, did so with reservations. And the President, in his eloquent message urging approval, made it clear that no millennium is to be expected.

Why, then, was this treaty approved, and without amendment? The answers are several. World opinion of peoples everywhere was certainly an element. So was the feeling that any measure of control over nuclear weapons is much better than none. An overriding consideration was that the admitted risks in the agreement will prove to be outweighed by possible gains. And, finally, a question of U. S. world prestige and leadership was at stake.

Beyond all this, the fact remains that the Soviets have violated solemn treaties directly, or by subterfuge. It is this that

must be watched with infinite care in the present case, and the President has promised that it will be done. We, along with more than 100 other nations, now have the treaty and the hopes that go with it. Will they be fulfilled?

CAPITOL COMMENTS

CONGRESSMAN

CLIFFORD G. MCINTIRE

MAINE, SECOND DISTRICT

Processed foods increasingly are playing a prominent part in the lives of Americans and today consumers can purchase completely prepared meals which need only heat to serve. Evidence of the great expansion taking place in food processing is revealed in the fact that total production of processed foods rose from about 1.2 million pounds in 1947 to about 9.5 billion pounds in 1959. And the trend is still upward.

Another important factor of modern convenience foods is the variety of forms available. The number of processed food items carried in the average supermarket has increased from about 1,000 back in 1933 to from 6,000 to 8,000 today, and the number is still rising. It is estimated, in fact, that about 20 new or improved processed products are offered buyers each working day of the year.

Furthermore, the varied forms of products represent many different degrees of preparation, color, perishability, use, etc. Just a few years ago, for instance, our Maine potato was carried in food stores in only one form, a fresh product in the produce department. Today this table delight is available in numerous forms, including

STATE CD RECEIVES SUPPLIES

Seventy-four cases of supplies issued by the Federal government for Civil Defense emergency hospitals arrived last week in Bethel. This shipment is the first received in Maine for one of its eighteen emergency hospitals located throughout the state. Supplies are expected to arrive in the rest of the state within a week.

The 200-bed hospital units which are fully equipped to meet all emergencies, have held supplies to treat patients for a four day period only. The present supplies will increase the operating capability of the hospitals to a thirty-day period.

Civil Defense Emergency Hospitals are located in the following towns: St. Agatha, Houlton, Millinocket, Orono, Machias, Ellsworth, Milo, Rumford, Hebron, Pownal, Madison, Winslow, Belfast, Camden, Ows Head, Bath, Lewiston and Augusta.

present were: Mr. and Mrs. Ivan Morey, Susan, Cindy and Kathy Morey, Mrs. Eva Keniston, West Paris; Mrs. Edith Littlefield, Locke Mills; Stanley Davis, Tom, Andy, Susan, Mike and Nancy, Mr. and Mrs. Earl Davis, the Bob Kenistons.

frozen french-fried, canned dried, frozen patties, frozen potato soup, flakes, potato chips, mashed and hash browned potatoes, and as an ingredient in beef, turkey, and chicken pot pies; also, as an important part of prepared TV dinners.

The rise in popularity of so-called convenience foods is also reflected in bakery products. Back in 1933, an ordinary supermarket stocked about 17 flour and mix items while today, the same market carries about 100 kinds of bread, cake and cookie mixes. It is true, of course, that convenience foods cost more per unit, but on the other hand they do save considerable time in the making.

An example of the manner in which these processed foods save the homemaker's time is shown in some estimates of the costs in dollars and the number of hours of time required to prepare meals for a family of 4 for one day. For instance, a home-prepared meal would cost \$4.90 and take 5.5 hours to prepare; a partially-prepared meal would cost \$5.80 and take 3.1 hours to prepare; and a ready-to-serve meal would cost \$6.70 and take 1.6 hours to prepare.

However, while many view these developments in processed foods as progress, there are some persons who take exception. For instance when it was recently reported that the Australians had invented powdered butter, Robert C. Ruark, a United Feature Syndicate columnist was heard to say apprehensively:

"The end, I sadly fear, is in sight. The Australians have invented powdered butter. If we have powdered butter, we will shortly have dehydrated water, liquid bread, jellied Scotch whisky, cantaloupe crumbs, liquid ice and quick-frozen fried eggs — put a pinch of butter onto the unfrozen eggs, add a drop of liquid pepper for the handy tube, and cure the indigestion with a bicarbonate spray."

In a brief period of time we will have quick-frozen, powdered babies. Add a touch of dried water and boom—you have an adult, ready for the psychiatrist, war, or atomic destruction. He will have a vinyl heart, which will throb to electrical impulses, and he will fall madly in love with a girl who is compounded entirely of instant sugar, frozen apple, and everything automatic.

I guess we can conclude by saying Mr. Ruark's words give us some more food for thought.

COTILLION CLUB

We reviewed and practiced the dances we learned in previous lessons. We also learned a new fad dance, the Boo-Boo Stick Beat.

Friday, October 25, 7:30 to 9:30 at the Community Room, a Halloween dance will be held for this year's members and their guests.—Sec. Nancy Bean

SHC REPORTS \$50,000,000 IN HIGHWAY CONSTRUCTION UNDER CONTRACT

The State Highway Commission reports that during the month of September eight highway construction projects were awarded to contract totaling an estimated \$647,000.

The projects include work on Interstate 95 in Hampden, highway construction in Addison, Orient and Weston, four State Bridge projects and a project for traffic signals in Calais.

The Interstate project is for the construction of two rest areas along the freeway in Hampden. The northbound facility will be a half mile east of Pond Road overpass, the southbound area near the easterly crossing of the Souadabseok River.

The project in Addison will rebuild about a mile and a half of Route 187 just east of Tracy Corners. In Orient and Weston the project is along U. S. Route 1 and divided about equally by the town line with the total length of the section to be rebuilt one and a half miles.

Two of the State Bridge projects were let under a single contract. One project calls for the replacement of the wooden bridge on the Raymond Cape Road at Dingley Brook, between Casco and Raymond, with a structural plate pipe arch; the other project is for a steel plate pipe to replace the old concrete bridge, which carries Route 85 over the Tenny River in Raymond. In Starks, the narrow concrete bridge at Hilton Brook on Route 43 will be removed and a new reinforced concrete structure, with a span of 20 feet, constructed 100 feet upstream. The new location will eliminate a hazardous curve. A fourth project in Long Pond is for a new 3-span steel and concrete bridge over Parlin Stream about midway along a relocated section of Route 15.

Also awarded during the month was a project along U. S. Route 1 in Calais which calls for furnishing and installing a complete traffic signal system at the junction of Main and North Streets.

During September the SHC completed eighteen highway projects at a total estimated cost of \$1,962,670. Four of these projects were for construction of overpasses along the Bangor-Newport section of Interstate 95 which is expected to be opened to traffic by November 1st. The completed structures carry intersecting highways over the freeway at Cook Road in Carmel, Route 143 in Etna; Pond Road in Hiram and Route 69 in Newburg.

Highway construction projects were completed in Athens, Harmony, West Paris, Bridgton and Presque Isle. The project extending through portions of Athens and Harmony reconstructed about 2.5 miles of Route 130 and rebuilt two bridges over the curving Westserunett Stream. The West Paris work reconstructed about 2 miles of Route 28 eliminating

20 SECONDS with the NAZARENE

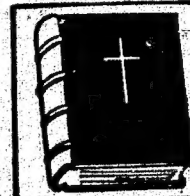

Jesus said to the rich young ruler: "Go and sell what thou hast, and give to the poor....and come and follow me."

Genuine Christianity costs something. On the Cross we see how much it has cost God. In the lives of the disciples and other early Christians we see how much it may cost us.

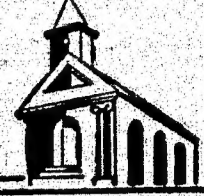

"How much does my faith cost me?" (Jesus' quotation from Matthew 19:21)

GOULD ACADEMY

Drop Thriller to Kennebunk

Gould Academy clung to a 14-13 lead until about 3 minutes remained in the game. End runs were the Rams big ground gainers, with Seaward sweeping Gould's right end unmolested on a 20 yard touchdown play.

Gould scored the first time they had the ball on a 62 yard Mike Chretien to Paul Imhoff pass and run.

In the second period, Kennebunk scored twice, but missed one of the extra points which gave them a 13 to 7 lead at half time.

Early in the second half, Jim Corriveau broke away to his right for a 54 yard touchdown run and made the extra point good by place-kicking. This gave the Huskies a 14-13 lead that they desperately hung on to until the final three minutes of the game.

This Saturday Gould meets
